### **Introduction**

When we go for a business or educational purposes in a foreign country, the first thing we should do is learning the language of the country itself. As we know that language is the life of a nation. By mastering the language and local culture, we will easily adapt to the new environment, appreciated by the local community, and communicate effectively with local partners to be succeeded in the business or educational field.

### **About UMN**

UMN was established on 25 November 2005 based on the National Education Ministerial Decree No. 169/D/O/2005. Its operation is officially managed by Multimedia Nusantara Foundation. This foundation was established by Kompas Gramedia, a reputable business group engaged in mass media, publishing, printing, bookstores, hotels and education services.

UMN is an institution of higher education with information and communication technology as its basis in the learning process in each subject it delivers. The professional lecturers in education and the directed and integrated programs will bring UMN to be an outstanding university at both national and international levels.
